

# the Chicopee skier

(Photo Courtesy of Kitchener-Waterloo Record)

The autumn has been kind to us this year. Full of great days for outdoor activity, in my case, for Hang Gliding and our exercise session each Sunday at 10:00 a.m. But, the skis, boots, poles and gloves, have been ordered long ago and now sit waiting for our first snowfall.

The Club has obviously been busy with the preparation of those two new hill areas. And the Ski School is assembled and ready. Last Spring, ten of our instructors attended Alliance courses and all ten came back more highly qualified. They are an enthusiastic and dedicated group and we are proud of them and the name they have made, as part of the Chicopee organization. We've much work to ask them to do this year, having expanded our program of services.

In the brochure accompanying this Skier edition, you will note that I have now the privilege of offering rental services as well as lessons. A coordinated program is now available. Rental rates are listed for half and full days and, new this year, a season rental of \$90.00 inclusive. Your equipment is always available to you when you come to ski. It looks as though we will be able to offer, in addition, a limited amount of space for ski storage in the Rental Shop. Base maintenance and waxing included. You will avoid the hassle of transporting your equipment and you'll save wear and tear on your investment. Those interested in renting a spot should act quickly and call us for further information. Ski accessories, wax, gloves, goggles, ski poles, suntan lotion, etc. are also available for purchase. A few pairs of demonstrator skis will be available free for you to try at the rental shop.

Our new equipment, which many of you have seen at the Ski Show or Swap Day, are Rossignol Compact II

The REUNION COMMITTEE is still searching for old pictures, slides and newspapers from past years at Chicopee. Can you Help? Contact June or Jim Gardiner for more information.

## Director Chicopee Ski School

Peter Schwirtlich

shorts, in lengths 135 thru 180 cms. The boots are the Trappeur Star model, a two buckle system, while the poles and bindings are both from Ramy. Major repairs on any skis can be handled through the rental shop.
